ABSTRACT

Please follow these instructions for preparation of your paper. The Digest will be published in 8.5" x 11" (21.59 cm x 27.94 cm) format. This template has been created using 8.5" x 11" size. Define the left, right, and top margins as .75" (1.905 cm) wide and bottom margins as 1" (2.54 cm) wide.

KEYWORDS: Formatting, Layout, Paper Submission, PDF-file

INTRODUCTION

Your paper should have a length up to **one-two (1-2) pages** and all fonts **MUST** be embedded. The electronic Proceedings will be produced in color. Because the Proceeding publication will be electronic, please feel free to use active hyperlinks in your paper.

RESULTS AND DISCUSSION

You should double check that your final PDF file is 8.5" wide x 11" high before uploading it. Some computers **do not** convert the page size automatically. *Hint:* You may need to change your printer default settings. Just printing the PDF from Microsoft Word may not work. To check your page size, in Acrobat under Preferences >Page Display >Page Content and Information; click the box labeled "Always show document page size". This will display the PDF page size for your document so you may confirm the page size is correct.

CONCLUSION

Please use Times New Roman throughout the entire paper, including title, authors, affiliation, headers, sub-headers, figure captions, table headings, and references. To achieve a uniform look across the publication, the following formats should be used for the main paragraph types, also illustrated in the sample manuscript:

Table 1. Formatting instructions

Text item	Font size	Case	Alignment
Title	14 pt	ALL CAPITALS	center, bold
Author name	12 pt	Upper and lower case	center, bold
Affiliation	12 pt	Upper and lower case	<i>center, italics</i>
Header	11 pt	ALL CAPITALS	left, bold
Main text	11 pt	Upper and lower case	justified, normal
Table heading	11 pt	Upper and lower case	<i>centered, italics</i>
Figure caption	10 pt	Upper and lower case	<i>justified, italics</i>

We suggest that you structure your manuscript in the following major parts: ABSTRACT, KEYWORDS, INTRODUCTION, MATERIALS AND METHOD (if applicable), THEORY (if applicable), APPROACHES (if applicable), RESULTS AND DISCUSSION, CONCLUSION, ACKNOWLEDGEMENTS, REFERENCES, and CONTACT. There should not be any blank space after the section header and before the start of the text in that section. Do not use footnotes. Digital images (Illustrations, Figures, Charts and Tables) should be clean enough to reproduce clearly (Examples are shown below). We recommend to include 1-2 figures (including graphical abstract).
